## Project Group Issue

Hi,

This is an unfortunate case where students dropped the class well after add/drop day, which is why I assign the project later in the semester. I can't move students into your group, as the majority of groups were of size 4, so that would put another group in your same situation.

However, I am empathetic to your situation. Since you only have 3 students, I will waive the paper requirement for your group. You would only be required to do the code. To clarify, you DO NOT need to write the 1-2 page extended abstract. This will continue for projects 2 and 3 as well. When you turn in your project, please send me a reminder about this.

Thanks.
